Executive Summary

- Forecast of market size of FPC ................................................................. 2
- Market size forecast of major FPC materials ............................................ 3
- Ranking of FPC materials .................................................................. 4
- Manufacturers’ share of FPC materials .................................................. 5
- Market Trend of 2-layer FCCL- forecast of market .................................. 7
- Market Trend of 2-layer FCCL— by copper foil ....................................... 8
- Market Trend of 2-layer FCCL—Manufacturers’ share ................................. 9
- Market Trend of 2-layer FCCL—Manufacturers’ share of FCCL for High frequency .................................................. 10
- Market Trend of 2-layer FCCL—Market size forecast of FCCL for High frequency .................................................. 11
- Market Trend of 3-layer FCCL—forecast of market .................................. 13
- Market Trend of 3-layer FCCL—Manufacturers’ share ................................ 14
- Market Trend of 3-layer FCCL—Trend of High frequency ............................. 15
- Market Trend of Cover-lay market—forecast of market ............................... 16
- Market Trend of Cover-lay market—Cover-lay for High frequency ................. 17
- Market Trend of Film—forecast of market ................................................. 18
- Market Trend of Film—by resin and application .......................................... 19
- Market Trend of Film—Comparison of Standard film and high frequency film .................................................. 20
- Market Trend of interlayer dielectric materials market .................................. 21

Chapter 1, FPC material overall market

1. Production status of major manufacturer
   1.1 FPC material overall
      1.1.1 Japanese companies .................................................................... 23
      1.1.2 Korean companies ...................................................................... 24
      1.1.3 Taiwanese companies ................................................................. 25
      1.1.4 China companies ........................................................................ 26
      1.1.5 USA and European companies ...................................................... 27
   1.2 Production capacities of 2-layer FCCL manufacturer .............................. 28
   1.3 Production capacities of 3-layer FCCL manufacturer .............................. 29

2. Manufacturers’ share of FPC materials
   2.1 Total market in Volumeterms 2019 .................................................. 30
   2.2 Total market inAmount terms 2019 ............................................... 32

3. Market size forecast of FPC Material .................................................... 34

Chapter 2, Market of Film

1. Outline of polyimide film
   1.1 Product overview of polyimide film
      1.1.1 Standard polyimide film ............................................................. 38
      1.1.2 Transparent polyimide film ......................................................... 39
      1.1.3 High frequency polyimide film ................................................. 40
   1.2 Major manufacturer of polyimide film ............................................... 41
   1.3 Manufacturers’ status by application ............................................... 42

2. Market Trend of LCP Film
   2.1 Major manufacturer of LCP Film ..................................................... 43
Chapter 3, Analysis of 2-layer FCCL market

1. Status of major company
   1.1 Manufacturing status of cast type FCCL ................................................................. 60
   1.2 Manufacturing status of laminate type FCCL ......................................................... 61
       1.2.1 Adoption trends of base-film among laminate type FCCL manufacturers(2019) ...... 62
   1.3 Manufacturing status of metalized type FCCL ....................................................... 64
   1.4 Manufacturing status of 2-layer FCCL for High frequency ...................................... 65

2. Actual sales of major company
   2.1 Manufacturers’ share of 2-layer FCCL for 2019 ..................................................... 66
   2.2 Manufacturers’ share of 2-layer FCCL by type
       2.2.1 Actual sales in 2019 (in Volume terms, in Amount terms) ................................ 69
       2.2.2 Manufacturers’ share of cast type FCCL 2019 .................................................. 73
           (1) Manufacturers’ share of cast type FCCL for High frequency ........................... 76
           (2) Manufacturers’ share of cast type FCCL for High frequency by copper foil ...... 78
       2.2.3 Manufacturers’ share of laminate type FCCL by copper foil ............................ 79
           (1) Manufacturers’ share of laminate type FCCL for High frequency .................... 81
           (2) Manufacturers’ share of laminate type FCCL for High frequency by copper foil ... 83
       2.2.4 Manufacturers’ share of metalized type FCCL by Single sided and double sided ... 84
   2.3 Manufacturers’ share of 2-layer FCCL by copper foil ............................................ 86
       (1) Manufacturers’ share of 2-layer FCCL made with ED copper .............................. 87
       (2) Manufacturers’ share of 2-layer FCCL made with RA copper ............................. 88

3. Market size forecast 2017 through 2030
   3.1 Market size forecast of 2-layer FCCL by type ....................................................... 89
   3.2 Market size forecast of cast type FCCL
       3.2.1 by layer count .................................................................................................... 92
       3.2.2 by Standard and by MPI .................................................................................... 95
Chapter 4, Analysis of 3-layer FCCL market

1. Status of major company
   1.1 Manufacturing status of 3-layer FCCL ................................................................. 115
   1.2 Manufacturing status of 3-layer FCCL for High frequency .................................... 116
   1.3 Ranking (2019) ................................................................................................. 117

2. Actual sales of major company
   2.1 Manufacturers’ share of SS and DS 3-layer FCCL ................................................ 120
   2.2 Manufacturers’ share of 3-layer FCCL by copper foil .......................................... 122

3. Market size forecast 2017 through 2030
   3.1 Market size forecast by layer count ..................................................................... 123
   3.2 Market size forecast by copper foil ................................................................. 126
      3.2.1 in volume terms ......................................................................................... 126
      3.2.2 in Amount terms ...................................................................................... 127

Chapter 5, Cover-lay market

1. Status of major cover-lay manufacturer
   1.1 List of cover-lay manufacturer .................................................................... 131
   1.2 List of manufacturer cover-lay for High frequency ........................................... 132
   1.3 Ranking of cover-lay manufacturer (2019) .................................................... 133
   1.4 Manufacturers’ Share of the Cover-lay of type .................................................. 136

2. Market size forecast of Cover-lay 2017 through 2030 .......................................... 137

Chapter 6, Interlayer dielectric materials market

1. Status of major interlayer dielectric material manufacturers .................................. 141
   1.1 Status of bonding sheet for High frequency ...................................................... 142

2. Actual sales of major company
   2.1 Manufacturers’ Share of the bonding sheet market and the prepreg market ........ 143

3. Market size forecast
   3.1 Total market (bonding sheet and prepreg) ....................................................... 145
   3.2 Market size forecast by application .................................................................. 148
   3.3 Market size forecast by material ..................................................................... 151
   3.4 Market size forecast bonding sheet for High frequency .................................. 154
Chapter 7, Case study

I Japanese manufacturer
- Arisawa Manufacturing .......................................................... 159
- UBE EXSYMO CO., LTD......................................................... 165
- KANEKA CORPORATION ..................................................... 169
- Sumitomo Metal Mining Co., Ltd. ............................................. 173
- DU PONT-TORAY CO., LTD................................................... 175
- NIPPON STEEL Chemical & Material Co., Ltd. ......................... 178
- Nikkan Industries Co., Ltd ...................................................... 183
- Panasonic Corporation ............................................................ 189

II Korean manufacturer
- DOOSAN CORPORATION ...................................................... 195
- HANWHA Q Cells & Advanced Materials Corporation ............ 198
- INNOX Advanced Materials .................................................. 202
- KCF Technologies. Co., Ltd. .................................................. 207
- NEXFLEX ............................................................................. 209
- SKCKOLONPI. INC. .............................................................. 213
- Toray Advanced Materials Korea Inc ....................................... 216

III Taiwanese manufacturer
- Asia Electronic Material Corporation ........................................ 219
- AZOTEK Co., Ltd................................................................. 224
- GRACE ELECTRON CORP .................................................. 227
- ITEQ Corporation .................................................................. 230
- Microcosm Technology Co., Ltd. ............................................ 235
- Rogers Chang Chun Technology Co., Ltd ................................ 241
- TAIFLEX SCIENTIFIC CO., LTD ......................................... 244
- TAIMIDE TECH. INC ............................................................. 251
- ThinFlex Corporation .............................................................. 254

IV Chinese manufacturer
- Allstar Tech(Zhongshan) Co., Ltd ............................................. 261
- JIUJIANG Flex Co., Ltd........................................................... 266
- SHANDONG JINDING ELECTRONIC MATERIALS Co., Ltd .... 270
- SHENGYI TECHNOLOGY CO., LTD ........................................ 273
- ZHUHAI ATEM ELECTRONIC TECHNOLOGY Co., Ltd ............. 279

V USA manufacturer
- DuPont de Nemours, Inc .......................................................... 283
