Table of Content

Summary

Market outlook by types of high frequency film material.....	1
Competitive analysis of LCP and high-frequency PI	2
Trends of manufacturers of high-frequency film	3
Market trend of high frequency film (LCP)	4
Market trend of high frequency film (PI)	5
Market trend of high-frequency films for mobile phones.....	6
Market trend of high-frequency films for 5G networks	7
Market trend of high-frequency films for millimeter-wave radars.....	8
Supply chain (smartphones).....	9
Supply chain (millimeter-wave radars).....	10

Chapter 1 Trend of high-frequency films and base material by resin system

I. LCP film

1. LCP resin	
1) Overview of LCP resin.....	12
2) Product specification of resin for LCP films.....	13
2. Trends of high frequency LCP resin manufacturers.....	14
3. LCP film molding methods	
1) Inflation method	17
2) Melt extrusion-stretching method	18
3) Casting method (cast method).....	19
4) Sequential and simultaneous biaxial stretching methods	20
5) Methods, overview, equipment cost and suppliers of simultaneous biaxial stretching system.....	21
4. High Frequency LCP Film	
1) Film forming methods of the manufacturers of high frequency LCP film	22
2) Product specifications of LCP film	23
5. High frequency LCP FCCL	
1) Types of products and business trends of the major manufacturers	25
2) Product specifications of LCP FCCL.....	26
6. Board manufacturing technologies of typical LCP circuit board manufacturers	27
7. Sales results of major LCP film manufacturers	

1) Sales results by usage (2018)	29
2) Sales results by applications (2018)	31
8. Trends and forecasts of market size by application (2017 to 2030)	33
9. Price trend of LCP for high frequency applications.....	36

II. High frequency polyimide film

1. Overview of polyimide films for high frequency applications.....	37
2. Trends of major manufacturers	
1) Product overview of each company	39
2) Product specifications of major companies	40
3) Sales results of major manufacturers (2018)	41
3. Trends and forecasts of market size by application (2017 to 2030)	
1) High-frequency polyimide film in total.....	42
2) Modified polyimide film	45
3) Fluorocarbon polyimide hybrid film.....	47

III. Other high-frequency resin films

1. Overview of other high-frequency resin films	49
2. Product overview of each company	49
3. Product specifications/characteristics of major companies	50
4. Sales results of major manufacturers (2018)	51
5. Trends and forecasts of market size by application (2017 to 2030).....	51
6. Price trends	54

IV. High-frequency adhesive materials

1. Overview.....	55
2. Product overview of each company	56
3. Product specifications/characteristics of major companies	57
4. Sales results of major manufacturers (2018)	58
5. Price trends	59

Chapter 2 Trends of high-frequency film and base material by application

I. Mobile phones and smartphones

1. Mobile phone market size	
1) Market share by manufacturer of smartphones (2017 and 2018)	61
2) Trends and forecasts of mobile phone market size (including 5G smartphones)	63

3) 5G compatible smartphones	
(1) Comparison of 4G and 5G.....	64
(2) The trends of 5G-compatible smartphones around the world	65
2. Adoption trends of high-frequency films in smartphones	
1) High frequency trends by each part.....	66
2) Antenna board for smartphones	
(1) Antenna adoption status of each smartphone manufacturer.....	68
(2) Evolution of antenna boards in iPhone.....	70
3) Display modules.....	71
4) Dock flex and sub-board (for IoT connector)	72
3. Market trend of high-frequency films in mobile phones	
1) Market share by manufacturers (2018)	73
2) Market share by resin (2018)	73
4. Key Manufacturers trends	
1) Trends of manufacturers of FPC for antennas	74
2) Trends of manufactures of FCCL for antennas.....	75
3) Trends of manufactures of film for antennas.....	76
(1) Manufacturers' share of base material for antenna (2018).....	77
(2) Manufacturers' share of base material (modified PI) for antenna (2018).....	78
(3) Manufacturers' share of base material (LCP-FCCL) for antenna (2018)	78
5. Market size forecasts of high-frequency films for mobile phones	
1) By high-frequency film materials	
(1) Total.....	80
(2) By application (in volume terms)	82
(3) By application (in value terms).....	86
2) Market size forecasts of high-frequency films for mobile phones by application	
(1) Total.....	90
(2) By high-frequency film materials (in volume terms).....	92
(3) By high-frequency film materials (in value terms)	94
6. Market size forecasts of high-frequency FPC for mobile phones by applications and by layer count – Total (in volume terms).....	95
II. Base stations of 5G network	
1. 5G Communications Overview	
1) 5G communications vs 4G (LTE) communications.....	100
2) Network	
(1) 5G user communication network.....	102
(2) 5G communication wireless backhaul.....	103

3) 5G high-speed and large-capacity technologies by frequency bands	104
2. Frequency allocation of major countries in 5G communication	106
3. International collaborations and promotion groups in each country and region for 5G communication	107
4. Status of telecommunication carriers for 5G networks	
1) NTT DoCoMo	109
2) KDDI	110
3) SoftBank	111
4) Verizon Communications (United States)	111
5) KT (Korea)	111
5. Transfer to 5G Communication	112
6. Key applications for high-frequency substrates/overview and frequency bands	113
7. High frequency boards/high frequency board material for small cells	114
8. Trends and forecast of market size of high-frequency films for 5G communication	115
III. Millimeter wave radar	
1. Overview of the external sensing system and millimeter-wave radar in automobiles	
1) External sensing systems in automobiles	118
2) Overview of millimeter wave radar	119
2. Frequency bands of millimeter wave radar	120
3. List of companies entering into the millimeter wave radar market	121
4. High frequency boards/high frequency board material for millimeter wave radar	
1) High frequency boards/high frequency board material for millimeter wave radar (76-77 GHz band)	122
2) High frequency boards/high frequency board material for quasi-millimeter wave radar (24 GHz band)	123
5. Trends and forecasts of market size of high-frequency films for millimeter wave radar	124
6. Market trend of millimeter-wave radar/quasi-millimeter wave radar	
1) Trends and forecasts of the market size of millimeter wave radar/quasi-millimeter wave radar	127
2) Background of market forecasts	128
3) Trends and forecasts of automobile market size (2017 to 2030)	130
 Chapter 3 Corporate case studies	
1. Manufactures of resin and film/base material (LCP system)	
Sumitomo Chemical Co., Ltd.	133
JXTG Nippon Oil & Energy Corporation	138
Polyplastics Co., Ltd.	141
Murata Manufacturing Co., Ltd.	145
Chiyoda Integre Co., Ltd.	151
Kuraray Co., Ltd.	154
Panasonic Corporation	157

2. Manufacturers of resin and film/base material (polyimide system)

DuPont de Nemours, Inc.	165
Kaneka Corporation	173
Du Pont-Toray Co., Ltd.	177
Nippon Steel Chemical & Material Co., Ltd.	181
Toray Industries, Inc.	187
Nitto Denko Corporation	190
Mitsubishi Gas Chemical Company, Inc.	193
Chukoh Chemical Industries, Ltd.	194
Arakawa Chemical Industries, Ltd.	199
Arisawa Mfg. Co., Ltd.	203

3. Manufactures of resin and film/base material (others)

AGC Inc.	206
Hitachi Chemical Co., Ltd.	211
Ajinomoto Fine-Techno Co., Inc.	216
Toagosei Co., Ltd.	218
Kurabo Industries Ltd.	221
Zeon Corporation	223
Taiyo Ink Manufacturing Co., Ltd.	228
Nikkan Industries Co., Ltd.	229

4. Case Study of FPC manufacturers and film users

Nippon Mektron, Ltd.	236
Fujikura Ltd.	239
Meiko Electronics Co., Ltd.	243

Appendix: High frequency film/FCCL/resin (Characteristic data table)

1. Liquid crystal polymers	247
2. High-frequency polyimide (modified polyimide/porous polyimide)	249
3. High-frequency polyimide (fluorocarbon polyimide hybrid)	250
4. Other high-frequency resin films	250
5. High-frequency adhesives	251

Application Form (Credit Card)

FAX to +81-3-5641-0528. _____

Date: _____ To: Japan Marketing Survey Co Ltd.

Report Title: The Market and Technological Trend for High-frequency Film

Corporate Name: _____ Applicant's Name: _____

Applicant's Department: _____

Corporate Address: _____

TEL: _____ FAX: _____

Email: _____

Card Type: _____ Card Number: _____

Name on the Card: _____ Expiration Date: _____

Signature: _____

Application Form (Wire Transfer)

FAX to +81-3-5641-0528. _____

Date: _____

To: Japan Marketing Survey Co Ltd.

Report Title: The Market and Technological Trend for High-frequency Film

Corporate Name: _____ Applicant's Name: _____

Applicant's Department: _____

Corporate Address: _____

Email: _____

Please transfer the payment to the following:

Bank: MIZUHO BANK (Swift code: MHCBJPJT)

Branch: Kobunacho Branch (Phone: 81-3-3661-3111)

Branch code: 105

Branch Address: 8-1, Nihonbashi-kobunacho Chuo City, Tokyo 1030024 JAPAN

Account No.105-1653912

Account Name: Japan Marketing Survey Co., Ltd.

Please make the payment in 15 business days. Please transfer the payment the way the amount above will be deposited in our account.
